THE EDOX HISTORY

1860

CHRISTIAN RUEFLI-FLURY

In 1860, Christian Ruefli-Flury was born in Courrendlin (Switzerland). In 1870, he commenced his horology apprenticeship with Urs Schild before joining the Eterna watch company. In 1883, he married Pauline Flury and worked for Jean Aegler. He then made several contributions to the city of Biel.

1884

IT ALL BEGAN WITH A TRUE LOVE STORY

Christian Ruefli-Flury, produced a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinced her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

1900

THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

1955

A GROWING COMPANY

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies.

THE WATER CHAMPION

1961

1961

DELFIN THE ORIGINAL

The famous “Delfin” timepiece was launched, featuring a double caseback, special protective gaskets and a specially invented double O’ring system, setting new standards of shock protection and water resistance. Edox became known as “The Water Champion” of Swiss watchmaking.

1965

HYDRO-SUB

The revolutionary Hydro-Sub collection was launched, featuring the famous double O'crown patented Edox gasket for increased water resistance.

1970

THE FIRST GENUINE WORLD TIME WATCH

This year saw the introduction of the world's first truly global timepiece, the "Geoscope" watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

1998

WORLD RECORD STILL UNBROKEN

Edox engineers and watchmakers developed the world's slimmest calendar watch, the "Les Bémonts Ultra Slim" collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

2010

THE TIMEKEEPER

Edox becomes the official WRC timekeeper and launches a new collection dedicated to rally drivers, true virtuosos of the tarmac, snow and ice, and to all devotees of the automobile and motor-racing world.

2016

SAUBER F1® TEAM

Edox is the official Premium Partner of **Sauber F1® Team** and steps in the thrilling world of Formula 1.

A new collection dedicated to this prestigious partner is also launched in 2016. This partnership is a strong testimony of Edox's presence amongst the most reknown and active Swiss watch brands.

2016

NEW FACTORY

Due to growing production demand, the factory capacity has expanded with a second floor.

2020

NORTH SEA

Edox pays homage to the North Sea divers who performed the greatest diving history in the North Sea by launching the North Sea 1967 Historical Limited Edition.

CO-1

OFFSHORE INSTRUMENTS

CO-1

OFFSHORE INSTRUMENTS

01125 CLNBUN NINBU

By becoming the Official Timekeeper of the Class-1 World Championship in 2006 and creating the CO-1 collection, Edox raised the resistance to water and shocks of its watches to an even higher level.

CO-1

Collection's evolution

2006

Official Timing partner of Class 1 World Powerboat Championship
Designed with a scratch-resistant ceramic bezel.

2008

CO-1 Chronometer Automatic
With materials as in the construction of racing boats: ceramic, titanium, steel.

2013

CO-1 Automatic Chronograph Skeleton - the Ghost Ship

2019

CO-1 Carbon Chronograph Automatic
New case design: carbon cover.
Extremely water-resistant.

01125 CLNBUN NINBU

1
Strong steel and carbon case construction
Boîtier solide en acier et carbone
Stabile Karbon- und Edelstahlkonstruktion
Caja sólida fabricada en acero y carbono.
カーボンとセラミックを重ね合わせたハイブリッドケース
錶殼採用不銹鋼和碳纖物料，結構材質堅固
Прочная конструкция корпуса из стали и карбона
صلب قوى وعلبه من الكربون

GRAND OCEAN
SPIRIT OF THE OCEAN

GRAND OCEAN

SPIRIT OF THE OCEAN

10248 357BU BUIN

Edox has always had a special bonding with the sailing world. In 2008, Edox made his first step into world class sailing with a major timekeeping project for international regattas. The Grand Ocean collection crowns this statement by proposing since many years timepieces that feature an unforgettable look and great enginuity.

GRAND OCEAN

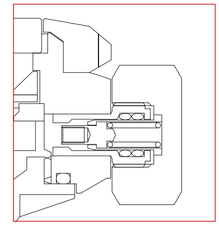

Collection's evolution

2009  Sea Dubaï Jumping Hour

2013  Official Timing Partner of World Sailing Series

2014  Grand Ocean Automatic Chronograph

2017  Grand Ocean Phantom Of Time

DELFIN THE ORIGINAL

THE WATER CHAMPION WATCH

DELFIN THE ORIGINAL

THE WATER CHAMPION WATCH

80110 357GNM GIN

The Delfin collection was first launched in 1961 and used revolutionary watch parts such as double O’ring gaskets for crowns and pushers and a special shock absorbing caseback in order to withstand an impressive water resistance of 200 meters.

Nowadays, this special equipment is still featured in Edox Delfin timepieces.

DELFIN THE ORIGINAL

Collection’s evolution

1961

Delfin The Original
First watch equipped with a double O’ring and a double caseback.

1969

Delfin day & date
Equipped with an in-house mechanical movement.

1973

Delfin with its iconic dodecagonal bezel

2014

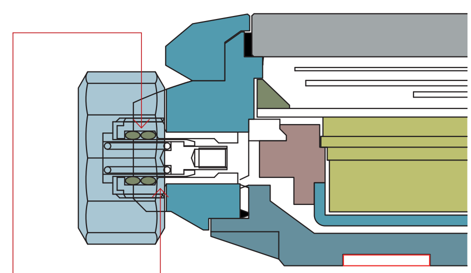

Delfin The Original chronograph
Follows the design of the 1973 edition.

NORTH SEA

THE GREATEST DIVE HISTORY IN THE NORTH SEA

The North Sea's frigid water are unforgiving. Working more than 300m deep requires courage and skill. The North Sea Divers, who in 1967 first helped unlock the riches off the coast of Norway, had those qualities in droves. More than 20 years later, they made their own "giant leap" 320m under the icy waters. Dubbed "The Inverse Moon Landing", it was the deepest ever dive in the North Sea. Edox is the official partner of the North Sea divers based in Oslo.

LES BÉMONTS
STYLE & ELEGANCE

LES BÉMONTS

STYLE & ELEGANCE

85300 3 NIN

Edox homeland is the land of traditional watchmaking and is the crib of the modern watchmaking craftmanship. Our land is rich of more than 400 years of history in watchmaking and our pride is to respect our elders'work and heritage.

LES BÉMONTS

Collection's evolution

1998

Les Bémonts Ultra Slim - World's slimmest calendar watch
Case height : 4.95mm, world record.

2009

Les Bémonts Ultra Slim
Features the world's slimmest calendar movement.

2019

Les Bémonts Ultra Slim
Features a new ultra slim Swiss Made high precision movement.

95005 3 AIR

1 Stunning view on the movement thanks to dial aperture
Ouverture de cadran offrant une vue magnifique sur le mouvement
Die Zifferblattöffnung gibt den Blick frei auf das beeindruckende Uhrwerk
Impresionante visión del movimiento gracias a la apertura de la esfera
ダイアル開口部から鑑賞できるムーブメントの美しい眺め
令人驚豔的沙漏鏤空錶面
Потрясающий вид на механизм благодаря окну на циферблате
مشهد رائع للحركة بفضل فتحة العداد

Transparent caseback offering view on the beating heart of the watch
Dos de boîtier transparent permettant d'observer le « coeur » en mouvement de la montre
Dank des durchsichtigen Gehäusebodens wird das schlagende Herz der Uhr sichtbar
Tapa de reloj transparente que permite ver los latidos del corazón del reloj
時計が刻む鼓動が観賞できるシースルーケースバック
鏤空後底蓋可欣賞機芯的運轉
Прозрачная задняя крышка открывает вид на бьющееся сердце часов
غطاء خلفي شفاف يمكن من مشاهدة قلب الساعة النابض

Classical, elegant and timeless design, with wide dial openings and pure case lines
Design classique, élégant et intemporel avec de larges ouvertures de cadran et des lignes de boîtier pures
Klassisches, elegantes und zeitloses Design mit grossen Zifferblattöffnungen und klaren Gehäusekonturen
Diseño clásico, elegante e intemporal, con grandes aperturas en la esfera y caja de líneas puras
クラシカルでエレガント、時代に左右されないデザインと、大きな開口部を持つダイアルデザインとシンプルなケースライン
經典，優雅，和永恆的設計，搭配拱弧線錶殼
Классический, элегантный и нестареющий дизайн, с широкими окнами на циферблате и чистыми линиями корпуса
تصميم كلاسيكي خالد مع فتحات عداد واسعة وخطوط علبة نقية

LES VAUBERTS

Representing a true story…

The end of the 16th century marked the start of watch making in the Jura mountains. The "Les Vauberts" collection pays tribute to this era by featuring a historic farmhouse on the case back which reflects the style of buildings where our predecessors made clocks during the harsh winter months.

Collection's evolution

2006

Les Vauberts Open Heart
Automatic

2008

Les Vauberts Open Heart
Automatic
The opening in the dial gives this watch a unique character. One of the most successful Edox watches ever.

2011

Les Vauberts Chronograph
Automatic
Pure classic chronograph with a Dubois Dépraz movement.

2018

Les Vauberts Moon Phase
Automatic
Follows the puristic design an heritage of the collection.

MARKETING & MORE

VISUAL ADVERTISING WINNERS

ADVERTISING CORPORATE GUIDELINES

For Edox, visual identity is highly important. Our "Timing For Champions" campaign has been developed to give more importance to the product.

The Edox Corporate Guidelines are set in order to ensure you that the artwork that you are preparing perfectly matches with the advertising layout instructions.

It also ensures perfect watch visibility with appropriate watch and logo sizes and all layout components.

ADVERTISING

Thank you for helping us in keeping the Edox brand image identical worldwide.

We remind you that all individually-designed layouts have to be submitted to Edox for final approval before printing of production.

All layouts are suitable for advertising, but also for banners, posters, window stickers, lightboxes, etc.

All layouts are available on the Edoxnet database (www.edox.ch/edoxnet)

For specific project, please contact Edox for full support.

EDOX QUALITY

Batteries

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

Edox double O'ring Crown or Pusher

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

Helium Escape Valve

Some of our CO-1 and Neptunian timepieces are equipped with a decompression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).

The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

Ceramic

Up to four times harder than stainless steel, ceramic is scratch-resistant and thus extremely durable. Mainly used to build the bezels of Edox watches, this material will also prevent the colours from fading.

Carbon

Carbon first became widespread in industries like aerospace and Formula 1. Exceptionally strong yet surprisingly light, Edox uses this material to build solid case constructions while giving them a very unique and distinctive look.

Bronze

Bronze has natural properties that set it apart from other materials. Bronze does not rust and is therefore widely used in nautical applications and for some Edox diving watch cases, bronze will react with other elements producing a layer of oxidization on its surface. This patina then acts as a protective coating and makes every Edox bronze watch unique.

DLC

Diamond-Like Carbon (DLC) is a coating in a layer of extremely durable and scratch-resistant carbon particles. It possesses the most desirable physical characteristics of diamond – hardness and durability – and with a sleek beauty. This treatment will improve the durability and the aesthetics of the Edox watch cases.

Hand-assembled

Every single Edox watch is carefully hand-assembled by qualified Swiss watchmakers in our ateliers in Les Genevez. Each one of them is checked and controlled over a long period of time – by both human beings as well as special equipment to ensure optimal quality.

Leather

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

Luminescence

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova X1 for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

Mother-of-pearl

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

Movements

Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

PVD

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

Rubber

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

Sapphire crystals

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

Stainless Steel

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

Titanium

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

Edox The Water Champion

Water resistance

The leading manufacturer and specialist for waterproof Swiss Made timepieces. Edox the legendary inventor of the double crown seal technology and the "Water Champion" of the watch industry.

WATER RESISTANCE CLASSIFICATION

	Meters	Feet	ATM	All Edox timepieces are water resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully.	Collection
	30	100	3	Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving.	Les Bémonts
	50	165	5	Suitable for showering or swimming in shallow water.	Les Vauberts
	100	330	10	Suitable for swimming or snorkelling.	Chronorally, Chronorally-S, Grand Ocean
	200	650	20	Suitable for swimming or snorkelling.	Delfin
	300	990	30	Suitable for scuba diving.	CO-1, Grand Ocean, Delfin, North Sea, SkyDiver
	500	1650	50	Appropriate for serious deep water diving.	CO-1
	1000	3000	100	Appropriate for extreme deep water or bell diving.	CO-1, Neptunian

If the crowns are unscrewed the watch is not completely water-resistant.
Check if the crown if fully secured before any kind of water contact.
